TANGO DE PISTA CHAMPIONATSHIP / TRIPLE CROWN

The heat(s) in these categories will consist of 3 songs in each event. This event will be divided into 3 different category: Am/Am, Pro/Am and Senior. In Pro/am the judges will score couple on the base of Am dancer. The placement will be determined by the total accumulated scores on this three dance tanda consisting of tangos by different composers. A minimum of 6 couples must participate to earn prizes.

Please read the following important information for the category/-ies you want to register:

Once a couple forms a dance frame, the partners shall not separate as long as the music is playing. This means that they cannot break the embrace, which is considered as the Tango dance position.

For the position to be considered correct, partners must constantly hold each other by means of the embrace. It is understood that, in certain figures, this may be flexible; but not throughout the entire piece of music. All movements shall be performed within the space allowed by the couple's embrace. They will be allowed, if needed, to walk one or two step backwards at most always within the space of the couple.

The couple must be aware and respectful of their own and other couples' space in the round in order not to break the harmony when moving around. If a couple performs more than two phrases in the same spot, obstructing the circulation on the dance floor, the Jury may consider lowering their score. In the event that one couple stops the flow of traffic around the dance floor, it is not possible for other couples to go past them. If the jury deems it necessary, the round of couples may have to dance to another tango to solve the inconvenience.

Once formed, the couple must not separate while the music is playing. For the position to be considered correct, the body of one of the members of the couple must be contained at all the time by the arm of the other. It is understood that in certain figures this may be flexible, but not throughout the whole duration of the dance. All movements and figures must be made within the space allowed by the couple's embrace, so as not to get in the way of the other couples dancing.

The leader may invite the follower to walk and/or turn to their right or left, without taking steps backwards on the dance floor. It is not necessary for partners to break the embrace between songs. Within these guidelines, participants may perform any figure commonly used in the social dancing only!!! This includes: barridas (sweeps), sacadas (close to the floor), enrosques (twists), etc.

NO ! Ganchos (hooks), saltos (jumps), trepadas (climbs) and any other typically stage tango possibilities where both feet lose contact with the floor are completely excluded. None of the members of the couple may lift his/her legs beyond the line of the knees.

Some foot embellishments are allowed within this limit only within couple personal space.

TANGO STAGE / SHOWCASE.

In the Stage Tango Category, each couple will compete individually, dancing to a choreographed song of their choice, one couple at a time.

Length of a piece must be less than 3:10 minutes. All music must be sent to the organizers team ahead of time, by email with the following information on the email's body: couple's name, song name and orchestra name. It is suggested that you bring a backup in case there is a problem with your music file.

Participants will be able to express their personal view on the Tango dance: this means they may use movements, figures, acting and applications that are not usually related to traditional Tango, however, the choreography must include traditional figures of Tango such as: ochos, turns, long walks, voleos, ganchos, and also the "milonguero embrace".

Couples may break the embrace and use techniques derived from other dance disciplines, as long as these are justified and performed for the benefit of the interpreter.

Aerial tricks and other movements characteristic of other dances must not be excessive, (this means that they must not exceed one third of the performance). The couple must perform progressing (walking) sequences onto the floor using the whole scenic space.

Mistakes:

Competitors are encouraged/expected to dance through their mistakes. Competitors are not allowed to repeat or start over for performance reasons.

Technical problems: if technical problems occur during performance, competitors will be allowed to perform again.

Regarding overall look for the couple:

Tango costumes and make up may be considered for evaluation (use of inappropriate costumes that are not typical for performing tango such as salsa or ice skating costumes will be penalized).

If a technical problem should occur, the jury will decide if the repetition of the choreography at the end of the assigned slot is necessary.

In the case of a couple having a problem with the choreography. The couple will decide whether to continue dancing or not, but the couple will not be allowed to repeat the performance. The jury will indeed evaluate the manner and grace with which the couple has solved the problem.

The Judges will score the performance based on the following Tango Show-dance evaluation criteria: Choreographic composition, use of the stage space, choreographic and postural technique, couple's synchronicity, choreographic effects, music Interpretation, & musical accuracy.
